SUPPLIER OF WEIGHING SOLUTION

WORLDWIDE!

Equipment data sheet—lifting jack—load cell—assembled weighing platform

Capacity of load cell: 200ton, 300ton, 400ton, 600ton, 1000ton.

Application: Weighing
Monitoring balance status of oil drilling platform over sea.

Load cell is working under platform

Features:

High-accuracy

Low-profile

Special internal configuration with 4-pillar for attaching strain gauge, being with better performance against unbalance loading and side force

Without any external cable junction box, be loaded into jack (inside hydraulic cylinder), stable center of gravity with low profile, easy-installation; Overall stainless steel enclosure against rusting; double-seal with O type ring and glue, making sure reliability of load cell;

Calibrated in national lab. to ensure high-accuracy.

Address: No. 199 Changxing Rd, Jiangbei Investment Industrial Park, Ningbo, China.

SUPPLIER OF WEIGHING SOLUTION WORLDWIDE!

Equipment data sheet—lifting jack—load cell—assembled weighing platform

Overall platform should be divided many separates pieces, which will be shipped to the site, where these separate pieces would be assembled together, 128pcs 400ton load cells would be assigned into corresponding point, where they can mornitor status of force.

Weighing system of 40,000ton oil drilling platform over sea contains 128pcs SZSCN-T1h400t with 128pcs jacks, 30pcs displacement transducer And controlling unit.

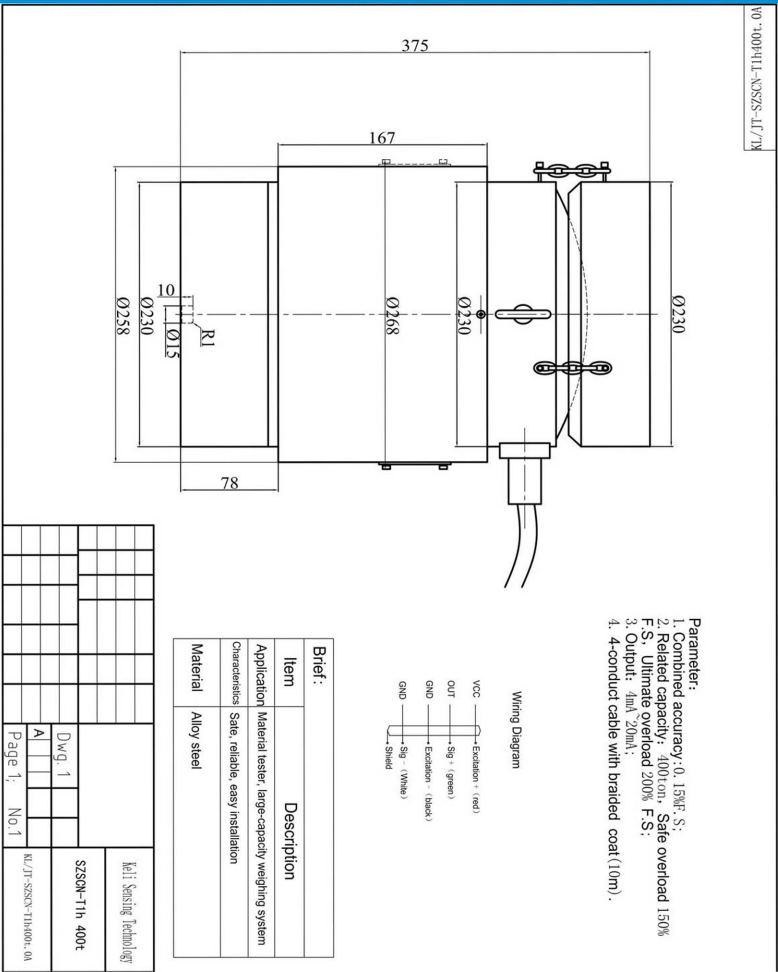

Address: No. 199 Changxing Rd, Jiangbei Investment Industrial Park, Ningbo, China.
